It sounds like a simple concept but for most women, it is a paradigm shift!

Daughters of Promise Conferences

Bible Teaching . Storytelling, Unforgettable Worship

Christine Wyrtzen is the founder and director of Daughters of Promise. She is a musician, Bible teacher, author, and host of a nationally syndicated program. She loves to reveal the good news of the Gospel with the passion and artistry, and to bring the deep implications of the new birth to center stage. Christine desires to share her pain and her triumphs as this provides a platform that can touch women profoundly. Her success in helping women discover the heart of God is due to her warmth and transparency, and her emergence out of ashes and betrayal.

Christine started performing when she was 3 years old. That provided mountaintops but also significant challenges. She spent much of her forties working through issues of performance pressures, others' expectations, and how to handle living life in the public eye. You will hear her speak about the lessons she learned through those years as life came crashing down.

She has been known for over 42 years as a musician with 19 albums. She is also the writer of six books. She's been nominated for a Dove Award and long admired for her ability to communicate to an audience. She is an artist with words and her poetic bent is evident in whatever she touches.

Her ministry is an outlet for her great spiritual passion. While she lives much of her life contemplatively, she looks forward to the many days a month when her travels take her to a group such as yours. She feels exhilarated when she watches a woman come alive to the transforming love of Jesus in such a way that her childlikeness is recovered.

She has been married for 44 years to Ron Wyrtzen, youngest son of the evangelist, Jack Wyrtzen, and they have two adult children and two grandsons, Gabriel and Andrew.

Christine loves stories. When she was four years old, she used to put on a pair of red glasses. She would tell her friends, who also couldn't read yet, that her glasses were special as she pretended that her red plastic glasses would enable her to read any book. She couldn't read a word, mind you.

But, she wove stories by the hour while her friends listened in contentedly. Later, she would learn that most of Jesus' sermons were stories.

Today, she still believes that stories are effective because they provide a way for truth to enter through a back door to a person's heart.

Daughters of Promise Conferences are intentionally designed to...

....Change the spiritual dynamics of every woman daring enough to take her message to heart. Many christian women *think* they know what it is to be God's child. They may even know a lot of scripture and significant amounts of doctrine. However, many admit that they just aren't connected to God experientially. Sadly, the result is often anger and confusion. Christine knows. She's been there.

....Present scripture as the living revelation of God rather than as an abstract textbook. Christine's teaching makes scripture jump off the page. Many have said that they heard God's voice for the first time. Their hunger for the Word is awakened out of a deep sleep.

....Proclaim a message that is simple, yet radical, through teaching and music. Christine's music cements the teaching it in the hearts of the women. Many say that the *Daughters of Promise* day became the 'first day of the rest of their lives.' Discipleship is understood and deeply desired as a result of this conference.

*Christine's Conferences include
teaching sessions and worship.*

Anyone who loves music and stories will remember the musical part of Christine's ministry for a very long time. She sits informally at the piano, singing, telling stories, letting each person there peek into her life and faith.

Anyone who listens might feel like they are curled up in her living room. An accomplished flute player, she weaves in her flute playing as well, giving women a chance for reflection and personalization of the message.

Her concert is unforgettable. The stories are poignant. This might just be the best part of the day!
