Sylvan Learning & Fly Studios YXE

Summer Camp August 17-21

Up & Atom Scientists!

9:00am - 12:00pm

Up & Atom Scientists! immerses kids in fun, hands-on, daily-themed science activities that follow the scientific method, encouraging them to solve problems through research, experiments, and discovery.

Under the Big Top

1:00pm - 4:00pm

After an academic morning at Sylvan Learning Saskatoon, your kids will spend the afternoon flying & moving through creative and artistic ways in the air!

We have the most qualified aerial instructors in the province to guide your kids safely through the air. The campers will be working towards creating a wonderful show & share performance for family & friends at the end of the week.

This 5-day camp will be an experience your kids will never forget. The kids will learn safe sequences utilizing each of our aerial apparatuses to incorporate swing, stretch, spin, balance, & strengthening. As they play and expand their imagination, they will discover a sense of independence while developing self confidence.

Camp Activities Include: Aerial Silks, Sling, Lyra, Arts & Crafts, Games, Low Flow Hammock & More!

$375 Per Child

Any Gender!
Grades 2-7!
