

HUBBARDTON FORGE CEU BLOOMING INNOVATIONS

THURSDAY, MAY 17, 2018
12:00 P.M. - 2:00 P.M.

We hope to socialize with you at the *LED Innovations in Decorative Lighting* class presented at the Ferguson Bath, Kitchen & Lighting Gallery by Jeff Lindquist of Hubbardton Forge.

This one hour class will cover the importance of understanding lighting metrics for the selection of LED products as we consider the possibilities that LEDs offer for future lighting design. Enjoy a live cooking demo by Thermador. As a special treat we will also have an onsite tutorial on *Blooming Innovations* by the floral specialist of Melba's Flowers.

Earn CEU credit for doing what you love, plus walk away with a beautiful arrangement of flowers!
0.1 CEU in IDCEC, AIA – CES

4820 Hardware Drive NE
