

COVID-19 NEVER MIX THESE

Be extremely cautious when mixing chemical disinfecting solutions at home. Here is a list of chemicals that are HAZARDOUS to mix.

BLEACH + VINEGAR

Creates chlorine gas that can cause coughing, breathing problems, and burning, watery eyes.

BLEACH + AMMONIA

Creates a toxic gas that can cause shortness of breath and chest pain.

HYDROGEN PEROXIDE + VINEGAR

Creates peracetic/peroxyacetic acid that can be highly corrosive.

BLEACH + RUBBING ALCOHOL

Creates chloroform, which is highly toxic.
