cloud provider

## MiVoice Business

Mitel's MiVoice Business provides you with the foundation to real communication that allows your employees to stay connected with colleagues and clients. The right communications solution is critical to business success. The benefits include:

### Rich Unified Communication Experience

Delivers a seamless integration of voice, email, unified messaging, mobility, presence, conferencing, contact center applications and more.

### Cloud-Ready Software Stream

Supports a range of deployment models: distributed, centralized, private cloud, public cloud or even a hybrid model to fit your evolving IT strategy.

### In-Office Experience Anywhere

Your business benefits from mobility support capabilities so that your employees can communicate from wherever they are and work as if they're at their phone desk.

### Business Continuity

Offers business continuity via resiliency and reliability options in the event of a network outage or hardware failure.

## Mitel & ShoreTel: Stronger Together

Powering connections is now **Brilliantly Simple**

### MiVoice Connect Onsite

Locally owned and managed traditional on-premise deployment model with 99.999% uptime.

Lowest Total Cost of Ownership.

### MiCloud Connect
