

- Are you aware that workplace inspections are one of the best proactive activities you can do to minimize the risk of injury to employees?
- Are you aware of what needs to be inspected?
- Are you aware of how often inspections need to be conducted?
- Do you know who should be conducting the inspections?
- Do you have a formal inspection process for your place of employment?
- Do you need assistance with developing a formal inspection process specific to your facility?

### **The Motor Safety Association can HELP!!!!**

MSA's Safety Advisors will mentor/educate/assist your Occupational Health and Safety Committee member(s) or supervisors with the goal of developing a formal site specific inspection process for your facility.

Feel at ease that your company is meeting its legislated obligations and hazards are being identified and controlled in a proactive manner.

Contact MSA today at 306-721-0688 or [info@motorsafety.ca](mailto:info@motorsafety.ca)
