

The Palmyra COB hosted a listening training at their congregation on November 15. They were kind enough to invite the ANE Shalom Team to attend. The presenting group was from a group called Someone to Tell it To.

The day was filled with information, ideas, and real, concrete suggestions designed to deepen the way we listen to others in a variety of situations. In the afternoon, we had a chance to practice these skills.

This workshop kept our attention and offered a wealth of helpful takeaways for us to use in our work as the Shalom Team and beyond.
