

MA Creative Health

A postgraduate space for artists, facilitators and practitioners who want their creative practice to meet wellbeing, community and care - **ethically, embodied, and in the real world.**

Teaching takes place through immersive retreat style weekend intensives, held **one weekend every month** - Friday to Sunday.

Between weekends, learning continues through **asynchronous podcast-style lectures, reflective tasks and creative prompts.**

You'll explore **embodied** and somatic practices, **creative enquiry** and reflective research, applied in **real-world settings.**

Collaborate with partners such as **Mind** and **take heART – Bedfordshire Hospitals NHS Trust.**

It's for artists, facilitators, community practitioners, health professionals and creative innovators - anyone **curious about where creativity meets care.**

University of Bedfordshire alumni: a fee reduction applies.

If you're curious, reach out - we're happy to share more.
