

IMPORTANT REGISTRATION INFORMATION BELOW PLEASE READ CAREFULLY AND COMPLETELY

General Information

To register you will first need to ensure you have an account created and the waiver signed for each member of your account. You can then elect to register for full days or half days using either a daily registration or weekly registration. If you register for a full week of camp containing one of the following days: 6/30, 7/4, 7/14, 8/11, a refund for that day will be issued back to your account. 7/4 is a holiday on which we will not be having camp. The other days are "all camp" field trips that require a separate registration, which can be found on our website. Due to a software limitation, a customer is limited to register for nine separate days in a single transaction. If you wish to register for more than nine days you may do so in separate transactions.
