E-Contractor Training Academy: Level 2

Achieving Energy Efficiency Through Small Contractor Participation

Southern California Regional Energy Network's (SoCalREN) Workforce Education and Training Program provides training, tools, and opportunities for participants to pursue careers and contract opportunities in energy efficiency. SoCalREN was established by the California Public Utilities Commission (CPUC) in 2012 and serves the areas covered by Southern California Edison (SCE) and SoCalGas®.

SoCalREN drives energy savings through the development and implementation of local energy sustainability programs that provide local governments with technical assistance, financing, and expertise to execute efficiency retrofit projects.

Program Enrollment

Contractors enrolled in the **E-Contractor Training Academy** will benefit from the support and guidance offered by technical assistance managers and industry experts. There is **no cost** to participate, but there is a time investment required. Contractors must possess a current California Contractors State License Board Contractor License.

The **E-Contractor Training Academy** is designed to prepare small contractors to compete and perform energy efficiency retrofit projects within SoCalREN territory.

For more information, contact:

Wendy Angel

P: (562) 413-5608

E: WET@socalren.org

Sheena Tran

P: (562) 413-1808

E: STran2@isd.lacounty.gov

This Academy will be a set cohort for contractors, as opposed to being held as individual workshops. Marketing will be singularly focused to recruit and enroll our cohort for all sessions in the Academy.

Academy Includes

- **Introduction to SoCalREN**, regional market forecast for energy efficiency projects, and technical training resources.
- **What is needed to bid on energy efficiency projects.**
- **What is needed to successfully manage Public Works projects**, once awarded.

Overview of Sessions

- **Week 1:** Estimating Principles
- **Week 2:** Project Scheduling
- **Week 3:** Principles of Project Management
- **Week 4:** Project Cash Flow Management
- **Week 5:** Project Close Out
