

# FRANK BISCEGLIE

---

Please consider this letter as a formal submission to be considered as a candidate for the position as a Board of Director of AHAI.

My name is Frank Bisceglie, and I have been serving youth hockey for several years, in various capacities. My hope is to have the opportunity to continue serving administratively, as I have served on the ice. To be clear, my true passion is coaching. Having the ability to serve the youth of our game and teach them to love our sport, is what I consider to be one of the greatest privileges one can have bestowed upon them. Having the opportunity to grow the game and mentor others as a coach, would not be possible without the tremendous efforts put forth in the board room. Understanding this philosophy is my driving force for wanting to serve as an AHAI Board of Director.

Below, I have compiled a list of some of my participation and accomplishments within the game of hockey. The purpose of the list is not to boast; however, merely to establish credentials that I believe to be essential. In fact, as I compiled the list (and reflect upon my participation), I find it to be somewhat humbling. Having a passion to serve the game has made this journey a joy.
