

Sept. 23, 2018

Good Afternoon Parents!

Just wanting to introduce myself- my name is Dani West, I am a Dance Physio/ Pilates Instructor based out of Calgary & Canmore, owner of Indepth Physiotherapy Inc. I have the wonderful opportunity of being a guest Teacher at your child's studio for the 2018-2019 season. I will be coming in 1x/month to teach on a variety of "Dance Medicine" topics as I am in the process of designing a set curriculum- hoping to make this class a new standard for dance studios in Calgary & Area. In the process of teaching and designing this curriculum, I am hoping to record some of the content and testing that we do in classes each month. I am hoping to use said content for the purposes of using as marketing materials/ social media advertising etc. in efforts to spread the word about a) what dance medicine entails and b) how it is being implemented in select studios around Calgary.

I have included a release form for this purpose. Please note that with the use of any photos of videos taken, your child's name **will remain confidential at all times**. No personal information about your child will be disclosed at any time. This release form is merely for permission to use the images/ video.

If you have any questions or concerns at all about the release form, please do not hesitate to contact me directly.

Thank you, I look forward to working with your child this dance season!

Sincerely,

Dani West
