

LIQUID HANDLING SPECIALS

PIPETMAN G

Easy glide piston displacement gives ideal pipetting and purge sensations

PIPETMAN® G brings a new level of comfort into Gilson range with a redesigned piston mechanism that reduces the force needed to aspirate and dispense liquids.

PIPETMAN G Multichannel's easy glide piston displacement gives ideal pipetting and purge sensations.

GET YOUR LAB UP AND RUNNING FAST

with Eppendorf's 3-, 4-, and 6-packs of Research® plus pipettes!

The Research plus is remarkably light both in terms of weight and pipetting forces, setting new standards for ergonomic operation. It also features a spring loaded tip cone that ensures a secure seal, low attachment forces, and easy ejection. Furthermore, it is fully autoclavable.

VOLUMES	CAT. NO.
3-PACK INCLUDES 3 SINGLE-CHANNEL, ADJUSTABLE-VOLUME PIPETTES, 1 FULL BOX OF EPPENDORF epT.I.P.S.® FOR EACH PIPETTE (EXCLUDES 5 AND 10ML PIPETTES)

MOVE-IT

ADJUSTABLE TIP SPACING MULTICHANNEL PIPETTES

Multiple sample transfers between different vessel types and formats become possible with the new Move It pipettes. Instead of pipetting many times, four to twelve samples can now be moved simultaneously. This not only saves you valuable time, it further increases the reproducibility of your results.

RESEARCH® PLUS MOVE-IT

Ultra-light and well-balanced, spring-loaded tip cone and SOFTject

- Automatic Combitip recognition eliminates time-consuming volume calculations
- Repetitive dispensing of volumes in long series such as tube or plate filling, aliquoting reagents and kit usage
- Contamination-free dispensing of toxic, radioactive and other hazardous liquids
- Precise and accurate dispensing of viscous solutions (e.g. glycerol) or liquids with high vapour pressure (e.g. ethanol)

PIPETTE TIPS

UNIVERSAL PIPETTE TIPS With FlexFit® Technology

The flexible proximal end ensures confidence in a secure seal on the most popular and widest range of major brand pipettes. Biotix uTIP pipette tips improve the performance of universal pipettes. Engineered with FlexFit sealing technology to create a strong seal with less insertion and ejection forces on every universal pipette. Two additional features, X-Resin and Blade technologies, help maximize your sample recovery and create reproducible results.

BUY ONLINE

LTS PIPETTE TIPS Fully compatible with Rainin's LTS pipettes

Improve the ergonomics of your lab with xTIP4 pipette tips. These tips feature positive stop technology ensuring every tip you attach ejects with minimal force. Everyone in your lab will benefit from the low ejection force without having to change his or her technique or pipetting style.

DRU-4-000-105

PIPET-AID® XL

- Longer handle allows for less arm lift
- Three speed settings
- Rechargeable during use
- New quieter, more powerful pump
- Power supply/charger
- 4 extra filters

DRU-4-000-501

PIPET-AID® XP2

- New ergonomic design
- New power source for uninterrupted extended operation – can be charged while in use
- New ultra quiet precision pump – great control for aspiration or dispensing

DLB-7033110300

LEVO PLUS

- Compatible with most plastic and glass pipettes
- Six speeds
- Large LCD display
- Single-handed operation with minimum effort
- Long runtime
- Rechargeable during use

SEROLOGICAL PIPETS

- Colour-coded stripes and packaging enable quick volume identification
- Bi-directional graduations are printed in bold easy-to-read black ink
- All pipets contain a premium material filter plug
- Improved longer length 25mL serological pipet with -10mL graduations (Cat. No. CSP-229225B only)
- 10mL wide tip serological pipet for viscous solutions – wide tip opening is 4 times larger than standard 10mL pipet
- Manufactured from medical grade virgin polystyrene
- All serological pipets are manufactured to the ASTM Standard Specification for Serological Pipets E-934
- All serological pipets are packaged sterile (gamma irradiated), individually wrapped in bags or dispenser cartons, or bulk packed in bags
