

Amber Activities Materials Included:

- Amber pieces in their natural state (dull and "crusted") - this amber is really millions of years old!!!
- Tools your participants will need to clean and polish the amber, including sandpaper, toothpaste, and denim.
- A baggie for each participant to take home his or her piece of polished amber in.
- The only materials you supply are markers and tape

Forest Forever Materials Included:

- All the materials you'll need for each participant to grow their very own pine tree. (Seed included is typically an Italian Stone Pine).

Owl Pellet Dissection Kit

Owl pellet dissection is the study of what owls cough up after eating their prey. By studying these remains, we can learn more about the diet, behavior, and food chain of owls. Our Owl Pellet Single Pack kit provides a great introduction to this fascinating project.

This kit includes: 1 Large Barn Owl pellet, 1 magnifying glass, 1 pair of tweezers, 1 wooden probe, and reproducible bone charts. Additional pellets sold separately.

Honeycomb Activity Materials Included:

- Honeycomb squares and wick for each child to make their own beautiful, natural 4" honeycomb candle from.
- Individual wax straw packets of real clover honey for each child to taste.
