

Southeast Region

Email: info@wearemass.org

Hey everyone! Hope everyone is having a great May! I'm glad to see it's getting warmer. We just returned to in-person meetings this April at the Lakeville Public Library and we had at least three new people turn up! It was great having the meeting in person, to be able to collaborate with people face-to-face was awesome!

MASS just had a prep meeting to plan for the ADA rally on July 23rd. It should be quite an event, and everyone in the southeast is encouraged to participate. The event will be held in Boston, and more details will follow.

We will not be holding a regional meeting this May, but we will be holding one on Thursday June 5th. I will do my best to be at

the May 31st conference in the West region.

We are still planning on the speed friending event in June. More details to come later about that!

Like I said last month, I am planning to do a podcast. It's in the early planning stages but I want to have people's input. What would you like the name to be? If you have any thoughts, email me at albert.milne@wearemass.org.

I hope you have a great rest of May, and I hope that you get out there and enjoy the warm weather! Talk to you soon.
