

Northeast Region

Coordinator: TBD

Email: info@wearemass.org

Hello Northeast, Spring has finally sprung! The month of April marks the beginning of spring, and brings us closer to warmer days and flowers blooming. All of us here in the Northeast will be moving about with a little *spring (more excitement)* in our hearts!

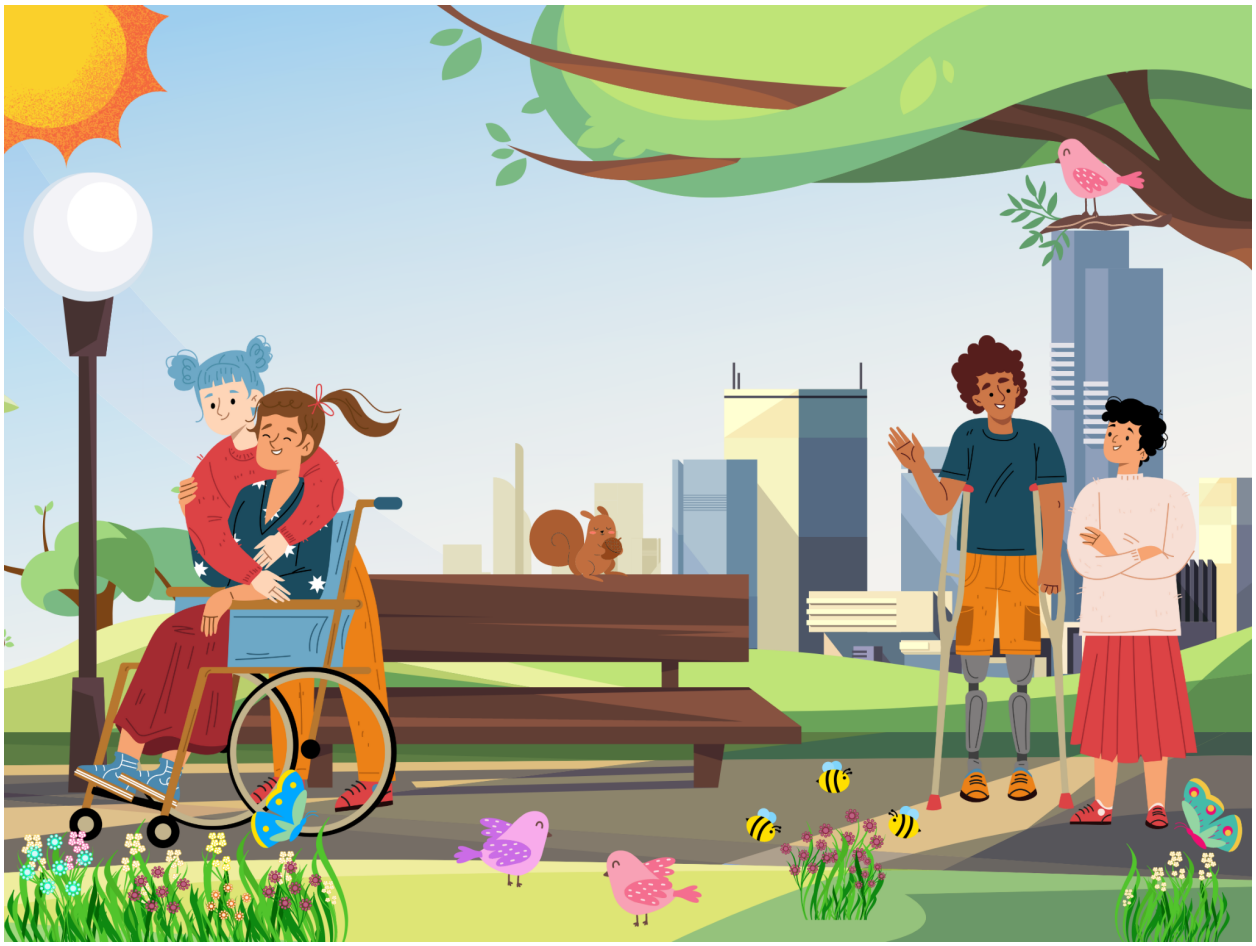

Image description: A city park with flowers, grass, and trees. There are tall city buildings in the far distance. There are bees buzzing, birds playing in the grass, and a squirrel on a park bench. The sun is shining. Two friends embrace each other in a hug, one in a wheelchair. Two different friends talk to one another, one with prosthetic legs and crutches.

The Northeast was full of creativity the month of March as always! At our regional meeting we put our creative minds together to play some Mad-Libs, pictured below! Mad-Libs is a game in which you create a very silly story together. It was a meeting full of laughter, and silliness.

Due to our good spirits we also began talking about in person events for the coming months! Our region remains hopeful and dedicated to growing together. The Northeast is filled with positive, dedicated, and creative minds. We welcome Spring and it's reminder that life always finds a way to prosper!

Join us on **Wednesday, April 19th from 4:00pm-5:30pm** for our Northeast Regional Meeting! We will continue talking about all that is happening in our region, and planning for upcoming events both virtual and in person! Please use the following Zoom information to attend the meeting.
