Hello Self-Advocates – It's Conference time again and we hope this year's workshops will be even better than last year's if that's even possible!

We are looking for self-advocates that would be interested in presenting a workshop either on their own or with other self-advocates.

The theme of this conference as the title refers to, is about standing up for what You believe in, deciding how You want to lead your life, and what decisions You want to make! The workshops are one of the primary components of the conference, given by self-advocates and focused on an assortment of topics whether it be how to learn about oneself through poetry or what's new in the world of assistive technology, learn about different sexual identities, or how to get involved in legislative issues, or dealing with dating issues or how to manage your wallet and save money or how to avoid on-line scams. There is no right or wrong idea for a workshop. It just needs to be a topic that you think is informative and educational.

Think outside of the box and go for it!

Once all applications are received, the Conference Planning Committee and M.A.S.S. Board will review them to decide which workshops will be accepted at the conference. Please note that we are limited in rooms and cannot accept all workshop applications.
