Over 95% of Households Counted So Far in 2020 Census

September 23, 2020

Over 95% of housing units have been accounted for in the 2020 Census as of September 22, with 29.6% counted by census takers and other field data collection operations, and 66.2% of housing units responding online, by phone or by mail.

Every day, the U.S. Census Bureau releases the 2020 Census [housing unit completion rate](#) for the nation, all 50 states, the District of Columbia and Puerto Rico. In addition, the Census Bureau releases the completion rates for the Nonresponse Follow-up operation by area census office.

The Census Bureau is committed to a complete and accurate count and urges every household to respond when a census visits or to respond on their own by using their census ID online, by phone or by mail.

Visit 2020census.gov to respond now and for more details.

Nebraska Self-Response Rate at 71.40 Percent

Report Date: September 22, 2020

Households can still respond now by completing and mailing back the paper questionnaire they received, by responding online at 2020census.gov, or by phone at 844-330-2020. Households can also respond online or by phone in one of 13 [languages](#) and find assistance in many more.

Time is Running Out to Respond to the 2020 Census

We urge every household that has not yet responded to do so online at 2020census.gov, by phone at **844-330-2020**, or by mail. We need everyone to **Get Counted** in the 2020 Census. Do your civic duty, avoid that knock at your door, get your Census done today, and shape the future of your community and neighborhood.

As a reminder, the U.S. Constitution requires a census of the population be taken every 10 years for purposes of fair representation and to inform how billions of dollars in federal funds will be distributed each year over the next 10 years

We are also required to keep your information confidential. The answers you provide are used only to produce statistics.
