LAKE HEALTH
WHAT YOU NEED TO DO

North Kawartha Lakes Association (NORKLA)
2019 Seminar Series for ALL Property Owners

Dr. Paul Frost, The David Schindler Professor of Aquatic Science Department of Biology, Trent University, Peterborough.

Dr. Frost will review the Kawartha Region Lake Monitoring program, present a recap of the Trent Water Testing in 2018 and explain what it means.

Dr. Kirkwood, Associate Professor, Faculty of Science at the Ontario Tech University, Oshawa.

She runs the Kirkwood Lab doing aquatic ecology research. Dr. Kirkwood will present ‘A Tale of Two Invasive Species: Is Starry Stonewort replacing Eurasian Watermilfoil as the dominate aquatic plant in Kawartha Lakes’?

Leora Berman, COO – The Land Between & Barbara King, Executive Director, Watersheds Canada.

Leora and Barb will present ‘The Blue Lakes Label’ Program which is about to be launched in pilot form on several of our NORKLA Lakes. Hear how your lakes can become a ‘Blue Lake’ which could increase property values. www.bluelakes.ca

Saturday, June 22nd - 9 a.m. (8:30 registration) to 1 p.m. with coffee break join us at the Wilson Park Community Centre – just off Hwy. 28 on Northey’s Bay Road. Cost of Admission is $5.00
