

January 20th, 2025

Dear Stakeholder,

Manitoba Transportation and Infrastructure is evaluating alternatives as part of a conceptual design study for twinning the 16-kilometre section of the Trans-Canada Highway from west of Falcon Lake to the Manitoba-Ontario border.

Landmark Planning & Design Inc. is working with Manitoba Transportation and Infrastructure and Tetra Tech Canada Inc. on this project, specifically to lead a stakeholder engagement process.

As a nearby resident or stakeholder who may have an interest in this potential project, we wish to meet with you for a second round of engagement event. You may have attended a first round stakeholder meeting held in July 2023.

Please consider attending this virtual stakeholder meeting where we will provide project updates, address questions and comments from the previous round of engagement, share the evaluation corridor alternatives, receive further input, and outline next steps.

We will be hosting a virtual stakeholder meeting as follows:

Date: **Tuesday, February 4th, 2025**
Time: **4:00 PM - 5:30 PM**

Please RSVP with subject line "PTH1 Twinning - Resident" via email at RSVP@landmarkplanning.ca or via telephone at 204-453-8008 and we will provide you a *Teams* link when you RSVP.

If you are unable to attend this session or if you wish to discuss the project in an alternate format, please do not hesitate to contact us. Thank you, and we look forward to meeting you!

Sincerely,

Donovan Toews, RPP, MCIP
