We at CHLT have impressive goals for Grand County's future. However, these goals can only be achieved with assistance from generous donors like you. We appreciate your continued support; we cannot do our conservation work without you. **Thank you!**

The first few months of 2017 have been eventful. **In April we welcomed Charles Curtin, our new Executive Director, who has relocated to Kremmling to lead our conservation work.** Charles is a landscape ecologist with more than two decades of experience implementing large-scale conservation projects with ranchers and other private landowners. In addition to over 80 papers, books and other publications, he recently published [The Science of Open Spaces](#) on the theory and practice of conserving landscapes. We are excited to have him on our team!

In addition to welcoming a new Executive Director, we have been organizing several outreach events, as well as thinking of new ways to conserve land, wildlife habitat, and water in Grand County. We continue to work with the landowners of working ranches in the spectacular Colorado and Fraser River corridors to protect their valuable land. To date, we have protected close to 9,000 acres from overdevelopment and subdivision in Grand County. Please visit our website and join our email list to stay informed on CHLT's latest activities and accomplishments.

Land and water conservation in Grand County exists because you're involved. **Remember that for small nonprofits such as ours, every donation makes a difference.** Just mail a check in the enclosed envelope, give online at www.cohlt.org, or call 970-887-1177. Thank you in advance for your donation! We hope to see you at our annual event on August 20.
