

## **When is the next session?**

CSD's Outreach is planning to offer the virtual Family ASL Classes again for the Fall 2021 semester. Check our website in early September for registration information that will be provided in English and Spanish at: [csdeagles.com/familyASLclass](http://csdeagles.com/familyASLclass)

## **What is the registration process?**

- From the [Family ASL Class](#) webpage, click the link provided to register online. (You can also access our online registration form by clicking your phone camera for the QR code that is on the flyer.)
- Please register each family member separately, which means going back repeatedly, in order to fill out a new online registration form for each person.
- When registering a child into the Sibling class, be sure to identify the child as a participant with her/his age information.

This program was spearheaded by CORE, with collaboration between the divisions of Instruction and Student Life at the California School for the Deaf.

Let's wave our hands in appreciation for the Family ASL instructors impacting families with Deaf children!
