Ketamine Gap Analysis and Toolkit Development to Increase its Use by Anesthesia Providers in the Perioperative Setting

NJANA Members: Would you like to help develop a Ketamine toolkit?

Consider participating in our Gap

*Seeking **clinically active** NJANA members to complete a short **online** 5-minute qualitative gap analysis survey on current ketamine usage. Data generated will help develop a ketamine workshop and sustainable toolkit about ketamine that can be readily accessed by all NJANA members. Data collected will be presented along with the workshop at **2020 NJANA Fall meeting @ Delta Marriot Hotel in Woodbridge, NJ***

Click here to participate-> Ketamine Gap Analysis Survey

Purpose:

- Assess the clinical practice and usage of ketamine
- Identify gaps in ketamine knowledge.
- Provide resources for ketamine usage based on survey results.
- Create a sustainable means to electronically access a ketamine toolkit

Principal Investigator:
Maureen McCartney Anderson, DNP,CRNA/APN
Mccartm3@sn.rutgers.edu
Co-Investigators:
Kevin Joseph, BSN, RRNA
Kj338@sn.rutgers.edu
Steven Schwab, BSN, RRNA
Sjs422@sn.rutgers.edu

Benefits!

- *Increase ketamine knowledge*
- *Increase comfort level*
- *Improve patient safety when using ketamine*
