# OUR TOP TIPS TO MAKE SIMPLE BUT EFFECTIVE UPDATES

Add a big tall headboard in neutral colour. A padded headboard with button details up the comfort factor.

Layer up lots of pillows - stand your pillows on their long end on top of the duvet rather than lie them flat, to make the bed look beautifully dressed.

# OUR TOP TIPS TO MAKE SIMPLE BUT EFFECTIVE UPDATES

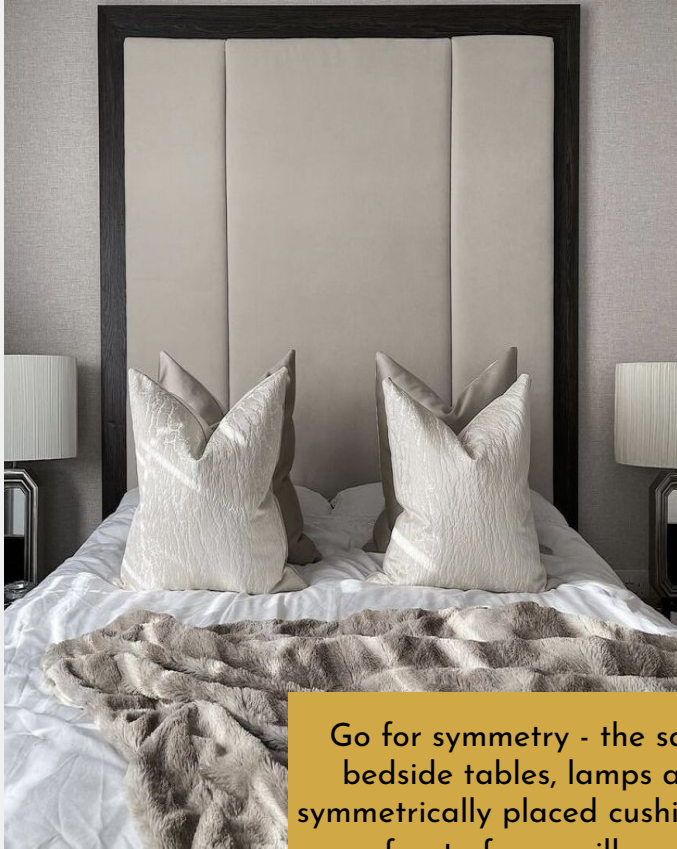

If you have furniture which is feeling a little tired, a simple yet effective way to dramatically change their appearance is by updating the handles.

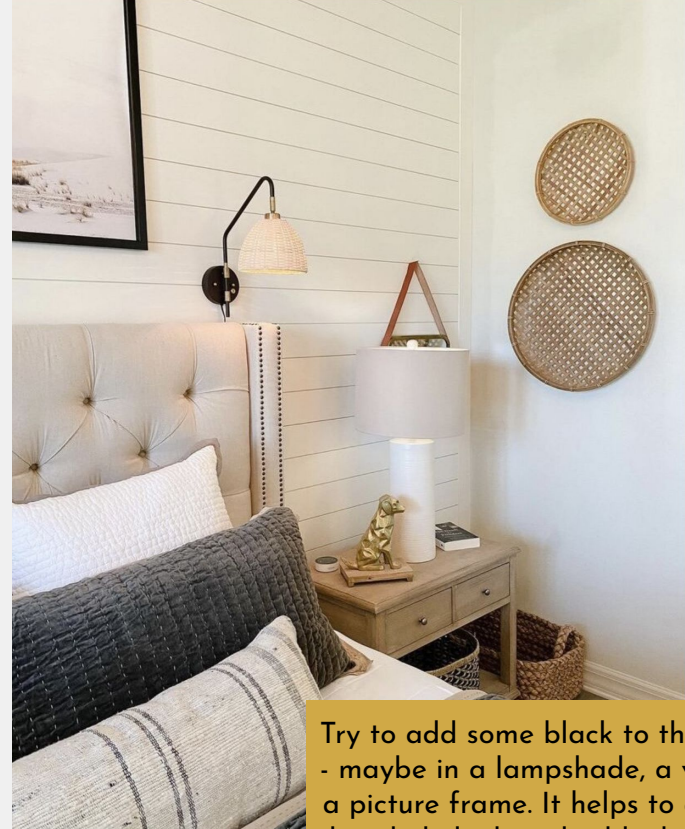

To bring luxury to your hard floors, add a large rug. A deep pile rug brings softness to a room and adds another layer of texture and colour.

# OUR TOP TIPS TO MAKE SIMPLE BUT EFFECTIVE UPDATES

Go for symmetry - the same bedside tables, lamps and symmetrically placed cushions in front of your pillows.

Try to add some black to the room - maybe in a lampshade, a vase or a picture frame. It helps to anchor the whole look and adds depths as well as class to a neutral scheme.

# CASE STUDY - HOLIDAY LET APARTMENT

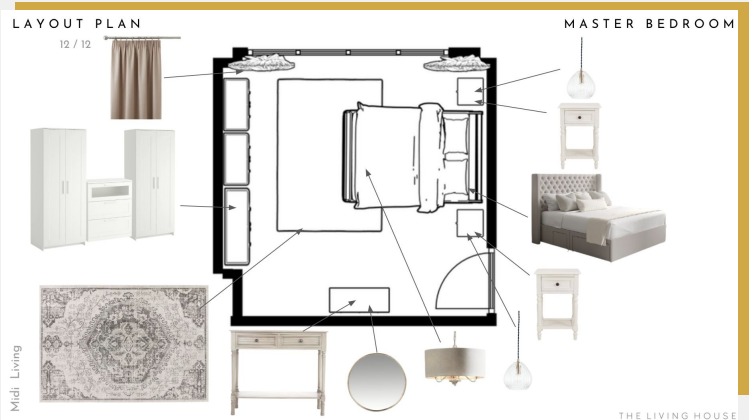

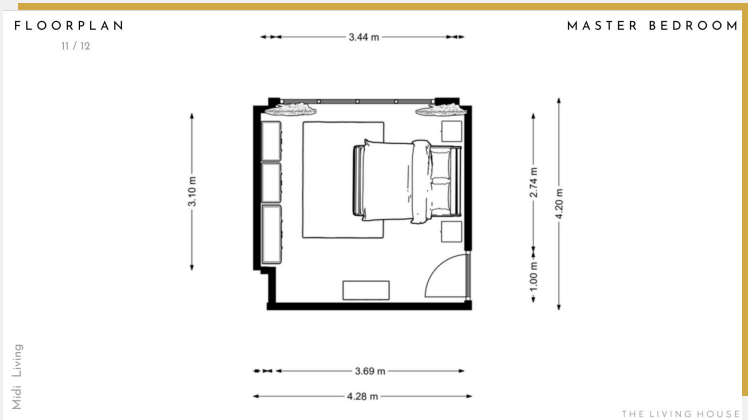

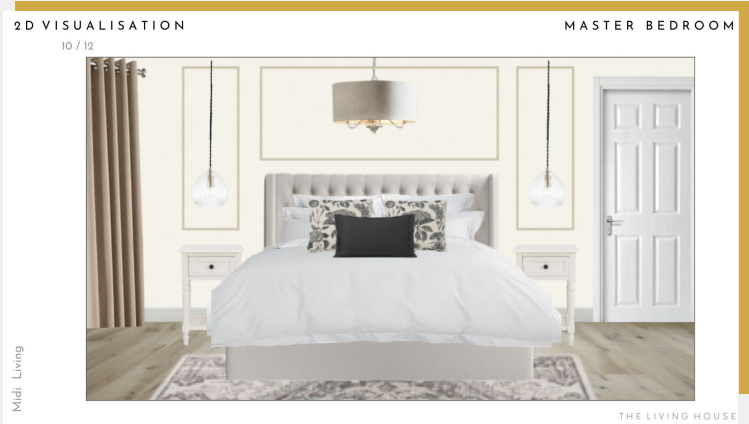

Our customer wanted to update their holiday let apartment, they wanted to add colour and modernise the space. To achieve this we added three accent colours to create a colour scheme - Navy, rust orange and blush pink. We selected contemporary prints for above the bed to introduce colour along with simple soft furnishings such as cushions and a throw on the bed to finish the look. Other changes that made a big impact was by upcycling existing pieces of furniture to tie in with the blue colour scheme and finally adding some interesting table lamps and plants!

# CASE STUDY - HOLIDAY LET APARTMENT

This is the other apartment which our customer wanted to update. For this room we chose a different colour scheme with the use of teal, green and copper oranges. Changing the bed instantly modernised the space, this room has a slightly more eclectic look with the vintage style bedside tables but then keeping it contemporary with the use of exposed bulb lighting, geometric wall art and velvet soft furnishings.

# CASE STUDY - MASTER BEDROOM

# CASE STUDY - MASTER BEDROOM

Our customer wanted their master bedroom to have hotel boutique look, they wanted to use neutral colour palette whilst keeping the overall style elegant and timeless. When opting for a neutral colour scheme texture and pattern is very important therefore to interest we recommended a feature wall by using panelling, contemporary bedside pendants, a cosy large patterned rug and a statement headboard.

# HOW WE CAN HELP YOU, REGARDLESS OF YOUR BUDGET

## AVOID MAKING MISTAKES IN THE FIRST PLACE

Hiring an interior designer before you start buying anything at all is a great move. We listen carefully to your wants, likes and dislikes, and work out where your money can be best spent. We do the legwork for you and know to check measurements, lead times, pricing, and durability at the start.

## USE ONLY THE MONEY YOU HAVE TO ACHIEVE THE LOOK YOU WANT

We do the research and hard work for you - you are presented with a complete scheme to the budget you specify. You can see how it will all work together beautifully. And with a clear and easy shopping list, you know where the money is being spent so you can make all the right decisions.

## ACHIEVE THE EXPENSIVE LOOK YOU LOVE FOR LESS

When you ask for our help, you are buying our years of experience on how to achieve a look for less. We have a vast knowledge of products and styles, and hacks to share with you to save you thousands of pounds. We take the look you've been dreaming of and can recreate it to your budget.

# HOW WE CAN HELP YOU, REGARDLESS OF YOUR BUDGET

## KNOW YOUR FURNITURE WILL FIT AND IT WILL ALL LOOK GREAT TOGETHER FROM THE START

Buying the wrong furniture for your space can be really costly and upsetting. But working with an online interior designer can help you make sure this doesn't happen. With our scale room layouts and visualisations, the guesswork is removed. You can see your actual room, designed with real furniture and you can easily imagine how it will all fit together.

## WORK WITH ITEMS YOU ALREADY HAVE TO KEEP COSTS DOWN

If you have any items that you would like to keep, show us. Whether an old bookcase, painting or chair, we can integrate it into your design and make sure it looks like it was meant to be there. We can use our professional eye to see pieces you own in a different way, and give suggestions for editing or upcycling - saving you money and reducing landfill.

## SIMPLE TRANSPARENT COSTS - PER ROOM, NOT PER HOUR

One of the great things about working with us is the way we charge. At The Living House, working with your own interior designer starts at only £65. You can have a complete room design for a flat fee of £195 meaning you know exactly what you're paying for, up front. There are no hidden fees or unexpected costs when you work with us.
