

 GILTECH

SOLUTIONS BUILT FOR  
**HOSPITALITY**

# PROTECTING WHAT MATTERS MOST

Physical security in hospitality is a critical investment—not a suggestion.

- Protect guests, staff, and contractors from on-site hazards
- Prevent unauthorized access to guest rooms and restricted areas
- Safeguard guest data and valuable inventory
- Respond to emergencies and maintain compliance with health and public safety regulations

# INDUSTRY CHALLENGES **WE HELP SOLVE**

Hospitality properties face a unique combination of threats. Giltech helps protect your guests, staff, and assets with scalable solutions.

- Enhance safety by quickly responding to on-site incidents
- Protect valuable assets
- Achieve site-wide visibility and control from a central location
- Ensure compliance with safety regulations and audits

# TAILORED SOLUTIONS FOR HOSPITALITY

Our customized security solutions are designed specifically with hospitality in mind.

## **Video Surveillance:**

Secure, high-resolution video with analytics and cloud options

## **Access Control:**

Role-based credentials, biometric options, and detailed reporting

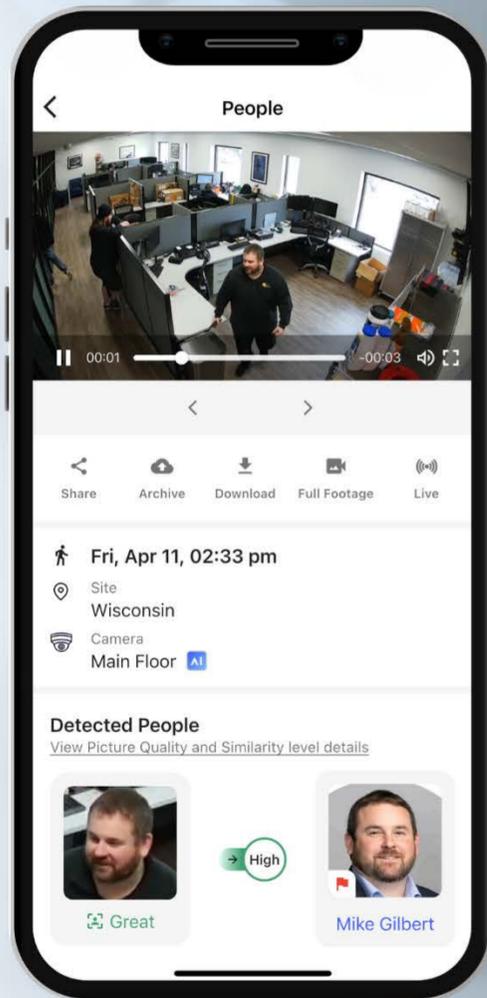

## **Smart Sensors:**

Monitor for air quality, temperature, and more—ideal for common areas and high-traffic lobbies.

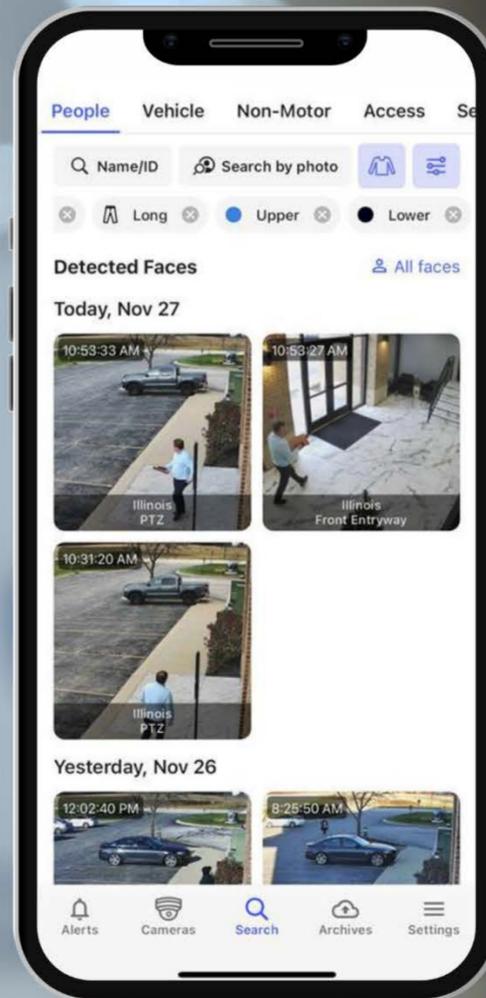

# USE CASE

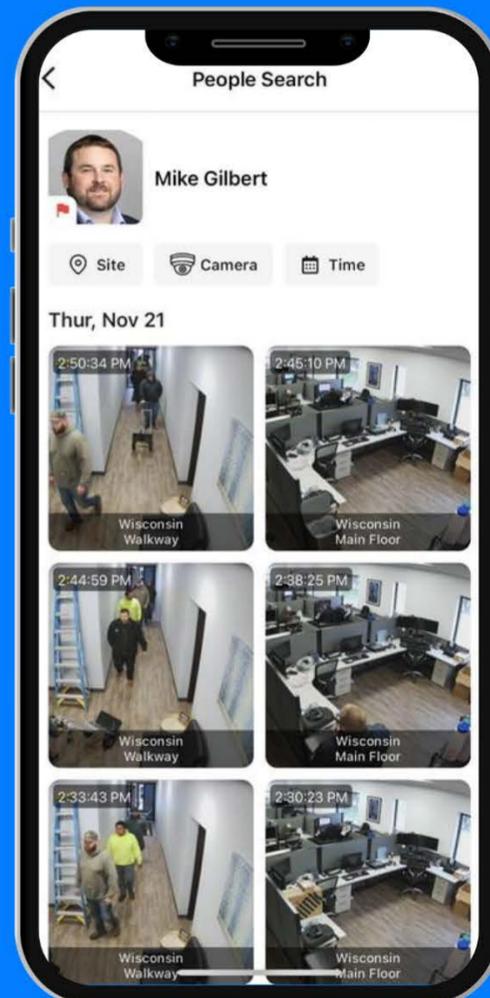

## LACK OF CENTRALIZED VISIBILITY

**Facial Recognition**

**Find people that match selected attributes**

**Search by Name, ID, or Face\***

- Multiple entrances and back-of-house access points
- Vulnerable to unauthorized entry and asset theft
- Challenging to track guest belongings or inventory flow

### Solution

- AI alerts for unauthorized access, perimeter breaches, and safety violations
- Biometric and credential-based access to verify personnel identity
- Unified, cloud-based platform for centralized management across multi-property portfolios

# A TRUSTED PARTNER IN **HOSPITALITY**

What sets Giltech apart? We deliver value beyond installation.

- Deep industry experience with hospitality properties of all sizes
- End-to-end support—from design to post-installation service
- Systems that integrate with your current infrastructure
- Open, non-proprietary technology—no vendor lock-in
- Dedicated account management and U.S.-based service

# FROM SINGLE SITES TO GLOBAL PROPERTIES

From a single property to a global hospitality portfolio, Giltech scales with your needs.

## SOLUTIONS DESIGNED FOR:

Properties

Kitchens

Lobbies

Back-of-house

# GILTECH'S MANAGED SERVICES

## Device Health

Through proactive monitoring, we track the health of devices, detecting issues before they become critical, and ensuring uninterrupted protection.

## Licensing

We manage licenses efficiently, ensuring compliance and enabling the customer to focus on security needs without worrying about expiration or renewal.

## System Updates

We provide timely updates to the security systems, incorporating the latest features and patches to keep defenses strong and resilient.

## Cloud Archiving

We offer secure, reliable cloud storage for security footage and data, enabling easy access, retrieval, and long-term preservation while ensuring compliance with industry regulations.

## Support

Our dedicated support team is available to address queries, troubleshoot issues, and provide expert guidance, ensuring prompt and effective assistance whenever needed.
