

2026 CAMP SIGN UP

Claggett Camps is using a new online portal for camp registration this year. Here is how to sign up for summer camp 2026:

1

Click the link on our website to register for camp. You will be taken to the CampInTouch webpage where you will create a new account. Enter & verify your email to create your account.

2

You should be taken to the Camper Application, if not click the registration link again and log in. Choose to sign up a new camper and enter their details to begin your Camper Application.

3

Next you will see the tiered pricing selection as well as all the camps your camper is eligible for. Your tuition will be updated automatically after you select your tier in the drop down menu. If you require a larger scholarship than the Supported tier, please see the scholarship form on our website.

4

Fill out the information for your camper's household(s) & guardian(s). This new system has support for campers who have multiple households & shared custody arrangements. When you enter the email for a camper's other guardian, that guardian will receive an email prompting them to set up their account, allowing them access to your camper's forms.

5

Continue through the Camper Application; if you have any questions or concerns, contact us! You can "save for later" at the bottom of the page, and log back in at any time to finish the Camper Application.

6

At the end you will be asked to pay the minimum deposit. Completion of the Camper Application and payment of the minimum deposit secures your camper's spot at camp. After the deposit is paid you should see a dashboard where your camper's forms will be available. We will send out notice once all of the required forms are accessible to families.

To sign up for multiple camps or multiple campers, click the registration link again. You will be able to add new campers or fill out applications for additional camps for the same camper from this page, without creating a new account.
