

August 2017

Dear Friends:

Two years ago, we were very fortunate to move into the newly renovated Hall of Justice.

We returned to a building that we occupied from 1925 to 1971.

Now, we are searching for our history in the context of this architectural gem.

We are working with the Sheriff's Department to open a small museum on the first floor.

To tell our story, we are asking retirees, their families and others who have had contact with our office to share their memories.

In particular, we are seeking photographs, letters and other keepsakes from that era that will help us capture and explain our past.

Please consider sharing your memories with us for this important history project.

To do so, please email my office with a description of the items you would like to donate or loan for display at info@da.lacounty.gov.

Please include all of your contact information and we will be in touch.

Jackie Lacey
Los Angeles County District Attorney
