PCS Structural *Solutions* is looking to welcome a mid-level **Project Engineer to our Seattle or Tacoma offices!**

We're looking for mission-driven individuals to join our collaborative and innovative team! At our firm, you'll have the chance to contribute to exciting projects that are shaping communities across the Pacific Northwest and nationwide.

As a single-focus structural engineering firm, we've built a strong reputation in healthcare, education, commercial, civic, and residential markets. We take pride in fostering a fun, supportive culture that values mentorship, continuous learning, and team-building activities, whether it's office barbecues, golf tournaments, or family-friendly events.

With offices in Tacoma, Seattle, and Portland, we offer a flexible work environment, though this is not a remote role.

Ready to make a difference? Join our team!

Minimum Qualifications:

- Bachelor's degree in civil engineering from an accredited college or university is required.
- Master's degree in Structural Engineering from an accredited college or university is preferred.
- 3-5 years of experience is required.
- EIT is required.
- Excellent technical and communication skills.
- Knowledge of Revit
- Attention to detail
- Willingness to learn and develop your craft alongside a dynamic team
- Position requires a pre-employment background check.

We offer a comprehensive benefits package including medical, dental, vision, life & AD&D, LTD, STD, employer contributions to a Health Savings Account, DCAP, 401(k) and employer match. Paid vacation, sick and holidays. Discretionary bonus program.

Please go to our website at www.pcs-structural.com/careers to apply.
