Water Infrastructure Funding in the Bipartisan Infrastructure Law

July 13, 2022 | 1:00PM-2:00PM ET

The U.S. Environmental Protection Agency (EPA) invites communities to join our July 13 webinar to learn how the Bipartisan Infrastructure Law (BIL) funding can help communities improve their water and wastewater infrastructure. For example, the BIL invests \$43 billion through the State Revolving Funds (SRFs), with a significant portion of funding provided as grants or principal forgiveness loans to disadvantaged communities.

In this webinar, you will hear about:

- How state revolving fund (SRF) program funds work
- How the BIL funding can help communities address water infrastructure challenges
- What resources are available (current and upcoming) for information and technical assistance
- Where to go for more information and to stay in the loop!

The webinar will include an opportunity to submit questions. The webinar presentation will be recorded, and EPA will post the recording and slides online after the webinar.
