Tenant Coronavirus (COVID-19) Resources

We're here to help.

CIC and The Preservation Compact are working to compile relevant resources that may be helpful to building owners and tenants during the COVID-19 health pandemic.

Local, state, and federal government agencies are working on relief packages. These proposals are still evolving. We expect to have more information soon and we will continue to update you on these measures.

We are working hard with our partners to advocate for common sense assistance for tenants and owners of multifamily rental to be included in these relief packages.

However, some resources are already available.

We are first sharing resources that may be useful to tenants. Please see below for a list of currently available information and resources in five categories:

1. Financial Resources
2. Food Assistance
3. Utility Assistance
4. Other Assistance
5. Information for Tenants with Subsidies
