# Summary

- Volleyball is considered a moderate-high risk sport and will follow a “phased-in” approach. We can begin tryouts/practice as scheduled on August 12 but a decision on competition has been delayed. Decisions on competition timelines (to start or to delay further) would be made on or by August 20.
- Scrimmages will not be allowed; the only occasions where students from different schools would be together is for official matches
- The MHSAA released its Volleyball Guidance Document (linked below) for the safe return to activity. This guidance includes general information along with volleyball specific directives for students, coaches, staff, officials and media members. Spectator guidance will be added once limits are finalized by the Governor’s office. This document complies with all Executive Orders from Governor Whitmer.
- New competition limits in all fall sports were approved to limit the number of teams and individuals at any one competition site. To summarize, competition will take place as locally as possible with no large-scale events, invitationals or tournaments (see the Volleyball Guidance Document for these limits).
