Mayor's Emergency Proclamation for Use of Face Coverings
The Governor's Executive Order pre-empted the proclamation. This afternoon, the Mayor will be issuing a statement (attached) acknowledging the changes and exercising his right to continue to require face coverings in city facilities and public transportation until Monday, April 19, 2021

City Reopening Plan
Our reopening plan is transitioning into phase 3. Staff is working to fully open facilities and programs on April 19th, with some exceptions. Below are some facilities of interest and the projected timing of their reopening:

- City Hall – fully opened on April 19th
- Libraries – fully opened on April 19th
- Outdoor Parks – Fully opened unless under construction on April 19th
- Ramadas and amenities all available for rent or use on April 19th
- FRAC – Due to staffing limitations, FRAC will continue to operate under limited days and hours of operation. We are beginning the hiring process to bring more staff on board. As they are hired and trained we will make adjustments until we are eventually able to fully open and return to normal days and hours of operations. We will provide updates to the Council and community regarding any updates as they occur.
- Pools – Fully open on June 7th at FRAC and June 8th at Rose Lane.
- Adult Center – The center is currently undergoing construction renovations that will prohibit it from opening until the work is completed. Staff is working towards early June to have it reopened with normal days and hours of operation.
- Gila River Arena – ASM will manage the use of the facility consistent with NHL COVID protocols for Coyotes games, and with ASM facility standards for non-NHL events.
- Camelback Ranch- Will be managed by the teams under MLB protocols.

As we reopen, we will continue our rigorous cleaning and sanitizing of City facilities, which will become standard practice in perpetuity to keep you and your family as well as our staff safe.
