2021 REDISTRICTING CRITERIA

- Each district shall respect communities of interest as much as possible;
- District borders shall follow visible natural and man-made geographical and topographical features as much as possible;
- District borders shall be drawn to avoid locating more than one current Councilmember in any one district as much as possible;
- Each new district shall preserve the corresponding existing district's population and territory as much as possible;
- Districts known to be areas of higher-than-average population growth in the two to five years following redistricting, based on development projects that have received final plat approval from the City, may be under populated within the population deviation amounts allowed by law;
- To the extent possible, consistent with constitutional law and the requirements of federal and state statutes, each district shall contain a substantially equal number of electors.
