

# Sex at Our Age

As we age, our needs related to intimacy and sexuality can change. Understanding how aging impacts our close relationships, and how to communicate our evolving needs, can improve how we feel about ourselves and those around us. Learning more about intimacy and sexuality as we age can encourage us all to discuss this topic openly while improving our capacity to advocate for ourselves. Come join us for a lively discussion about all things related to sexuality and intimacy led by Laura L. Grimes, LCSW, a trained sex therapist.
