

PURE
and Natural Pet™

You asked, we answered

Nose Rescue—keeping a dogs nose moist helps regulate their temperature. They don't have sweat glands and rely on their nose and pads to maintain a safe internal temperature. Dog's also explore the world with their nose and the elements in summer or winter can make tender noses sore, rough and chapped. Protect their sensitive snouts with our **SPF 17 USDA Certified Organic Nose Rescue**.

The Better Choice - Our award-winning Nose Rescue is made to Food-Grade standards, which means it's safe if your dogs licks our balm, and you don't have to pull out the pesky cone-of-shame. Your canine must-have for preventative wellness and first aid treatment.

It's also USDA Certified Organic, so it's safe for your pup, family and the environment

Don't forget to recycle your containers!

**No Dyes
Or Perfume**

Organic Moisturizing Nose Rescue

INGREDIENTS MATTER

Olive Oil— antioxidant that permeates between cells to moisturize & treat skin conditions. Anti-fungal, antibacterial properties w/ vitamin A,D,E & K.

Caster Oil — anti-inflammatory that treats and relieves dry and inflamed skin. Contains triglycerides to help maintain moisture in the skin. High in ricinoleic acid to help reduce pain and inflammation.

Beeswax— natural, non-toxic and anti-allergic that hydrates and heals. A natural protectant that soothes and hydrates. It creates a protective barrier to hold in moisture and reduce dryness. Won't clog pores and rejuvenates skin.

Calendula Oil— a natural oil extracted from Marigolds. Antifungal, anti-inflammatory and anti-bacterial properties that also reduces pain. Heals wounds, soothes eczema & other skin conditions.

Rosemary Extract— antioxidant that promotes wound healing and restores damaged tissue. Anti-inflammatory properties that reduce swelling.
