

Stain & Odor Eliminator

You asked, we answered

Stain & Odor Eliminator —Accidents can happen, but no one has to know. Now you can easily clean and eliminate the pungent pet odors of urine, vomit or feces & their return with our plant-derived spray.

The Better Choice — “Traditional cleaners” contain toxic chemicals and harmful surfactants. Our all-natural enzyme busting Stain and Odor Eliminator spray is not harmful to your skin, pets, carpets or our environment.

Product Tip—Wipe or blot your mess, then liberally spray the affected area and allow the stain time to soak and clean.

Seal of Approval— CSI/Carpet and Rug Institute Seal of Approval is all about cleaning efficacy and improvements. CSI developed the industry's only scientific program to test and measure the effectiveness of cleaning products on carpets. The program helps consumers make informed decisions for a cleaner, healthier, and longer-lasting carpet.

INGREDIENTS MATTER

Sodium Percarbonate — water soluble and will naturally remove stains and deodorize by helping to neutralize acidic or alkaline materials. An effective pre-soak for heavy stains. No environmental impact and will not weaken fabrics the way bleach can.

Baking Soda — ideal for fresh or old stains. Naturally brightens colors and removes bad odors. A great odor neutralizer that's also absorbs moisture.

Natural Enzymes — a natural cleanser that tackles uric acid and crystals and their stubborn smell. Enzymes break down these crystals and ammonia residue that's left behind in pet urine. Natural enzymes reduce scrub time and digest dirt, grease, grime and stain odors, and reduce the need for chemical cleaners all while killing and removing bacteria—it's your natural choice!

Don't forget to recycle your bottles!

**No Dyes
Or Perfume**
