

Shed Control Shampoo

You asked, we answered

Shed Control — From long thick fur to thinner coats, dogs shed and their fur is quickly all over your home and on you. It can make cleaning up a daily chore. Shed Control is a growing problem and we have the natural solution to quickly and effectively loosen your dog's undercoat. Our De-Shedding Shampoo contains moisturizers and Omega-3 Fatty Acids that hydrate skin and hair follicles, making fur less dry and brittle.

The Better Choice — This product really works! It is the winner of 5 industry awards and is a favorite Editor's Choice.

Product Tip— Brush your dog before and after their bath. Use sparingly. Be prepared for a LARGE release of fur. Afterward, your dog's coat will be soft & manageable and your daily clean-up with be considerably reduced.

INGREDIENTS MATTER

Sweet Orange Oil — A natural antiseptic that cleans while reducing yeast and other infections. It acts as an antioxidant with vitamin C to improve skin and protect from harmful UV damage.

Omega 3 Fatty Acids — Protects the skin from sun damage. It acts as an anti-inflammatory and keeps the skin hydrated while nourishing & conditioning hair follicles.

Coconut Oil — Adds moisture to the skin and helps improve skin conditions. Reduces allergens and heals wounds. It contains antibacterial, antiviral and antifungal properties which improve the skin and coat.

Aloe Vera — Repairs and rejuvenates the skin and coat and prevents itching. It also heals wounds and hot spots. It contains antibacterial and antifungal properties that soothe skin and reduce inflammation.

Shea Butter — An anti-inflammatory that repairs skin damage and has moisturizing properties to soothe, soften and heal rough, dry skin.
