

Canine Flea & Tick Spray

You asked, we answered

Smell the Difference —
Protect your Pets *NATURALLY*

Fleas are not only an itchy nuisance, but can transmit a number of diseases, and put your pets, and YOU at risk.

If your dog is currently wearing a traditional flea collar and rubs it on your couch, the entire family could be exposed to toxic pesticides that come from the collar.

With our all-naturals Flea & Tick Spray, you have a safe, effective and natural solution for your dogs wellness.

**Naturally
Kill Ticks**

ORDER NOW!

Ingredients Matter — read the label

Most flea & tick applications can be harmful. Our Flea & Tic Spray has Peppermint & Clove—it KILLS FLEAS.
