

PURE
and Natural Pet™

You asked, we answered

Stain & Odor Eliminator — Accidents can happen, but no one has to know. Now you can easily clean and eliminate the pungent pet odors of urine, vomit or feces with our plant-derived spray.

The Better Choice — “Traditional Cleaners” contain toxic chemicals and harmful surfactants. Our all-natural Stain and Odor Eliminator spray is not harmful to your skin, pets, carpets or the environment.

Product Tip — Wipe or blot your mess, then liberally spray the affected area and allow the stain time to soak.

Seal of Approval — ICSI/Carpet and Rug Institute Seal of Approval is all about cleaning efficacy and improvements. CSI developed the industry’s only scientific program to test and measure the effectiveness of cleaning products on carpets. The program helps consumers make informed decisions for a cleaner, healthier and longer-lasting carpet.

Stain & Odor Eliminator

INGREDIENTS MATTER

Sodium Percarbonate — water soluble and will naturally remove stains and deodorize by helping to neutralize acidic or alkaline materials. An effective pre-soak for heavy stains. No environmental impact and will not weaken fabrics the way bleach can.

Baking Soda — ideal for fresh or old stains. Naturally brightens colors and removes bad odors. A great odor neutralizer that also absorbs moisture.

Plant Derived Renewable Cleansers — Organic and hypoallergenic. Lauric Acid with natural antimicrobial properties is naturally extracted from coconuts whole oils that are void of glycerin.

They also reduce the need for chemical cleaners that can be toxic to your family and the environment. It’s the natural choice!

Don’t forget to recycle your bottles!

**No Dyes
Or Perfume**
