Detangling & Conditioning Spray

You asked, we answered

Detangling & Conditioning Spray —

Reduce the time spent on stubborn knots and mats. Our Detangling and Conditioning Spray quickly penetrates strands to release and loosen tangles for a shiny and smooth coat. Ideal for dogs with long or curly hair.

The Better Choice — Our sprays are specifically formulated to run cleanly and not clog machines. Save time without cutting corners or quality.

Product Tip — Spray Detangling & Conditioning Spray generously on the wet coat. It can also serve as an excellent Leave-In Conditioner.

No Dyes
or Perfume

INGREDIENTS MATTER

Purified Water — is filtered to remove any impurities, pollutants, chemicals or toxic contaminants. Untreated hard water can cause hair loss and lead to dryness and damage to the follicles.

Lavender Oil — soothes eczema and dry skin. It boasts anti-inflammatory properties and heals skin from insect bites and bacteria.

Oatmeal Extract — helps balance pH levels. Reduces breakage. Hydrates damaged hair and revitalizes for a natural shine.

Dimethicone — a type of silicone widely used in products to enable a silky smooth feel. Softens skin and improves the fur's texture.

Potassium Sorbate — a preservative and product stabilizer that serves as a paraben alternative to prevent the growth of micro-organisms.

Calendula Oil — hydrates skin with regenerative properties. Antioxidants to protect skin cells from damage.
