Why Rice Hulls?

You asked, we answered

Look beyond healthy food for energy—
Rice hulls provide a healthier bowl

Rice hulls are a Class-A
thermal insulating
material that can
reduce heat

Rice hulls decrease the
chance of mold growing on the dish

Our rice hulls are grown in the USA and
harvested locally in Arkansas

Our bowls are so light they float on water

Rice hulls make the product 28% lighter than
bamboo/melamine bowls

**RAW FEED
SAFE**

ORDER NOW!

Bowls & Feeding Sets

DESIGN—Chase balls, not the food dish

Our bowls are held securely in place by a raised
lip on the tray and the tray grips the floor with
rubber grommets, so
there's no movement

Formaldehyde free

Made with 30% renewable resources

Dishwater safe and easy to clean

Available in Natural/Brown, Herb/Green or Slate/
Gray in large or small sizes
