

# Ohio Tech Ambassadors Listen!

**Tuesday, April 6 at 10am**

This event is for families and individuals with disabilities who are interested in learning more about adaptive technology.

This unique event is targeted squarely at having an interactive discussion about supportive technology with individuals and families in Ohio. Unlike our previous events, Ohio Tech Ambassadors Listen! will consist of very little “program” and lots of Q&A time! If you are an employee of a county board or a partner agency, we need your help in getting the word to these people about this event and in providing them any help and support you can in attending and participating.

[https://zoom.us/webinar/register/WN\\_0Hlb7EKATQuBvfBEpcWMuQ](https://zoom.us/webinar/register/WN_0Hlb7EKATQuBvfBEpcWMuQ)

Your Tech Ambassadors want to hear about the technology people are using right now and both the successes and challenges they are experiencing with it. We want to know peoples’ reservations about using technology supports of all kinds and if possible to present solutions or at least ideas for them to consider.

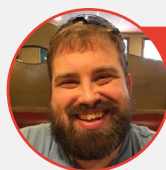

- |               |   |
|---------------|---|
| 10:00 - 10:05 | Intro – George Myers                      |
