## Medlock Bridge-Bush Road Intersection Improvements to Begin this Spring

Intersection improvements are on the way for Bush Road at Medlock Bridge Road. Operational improvements and upgrades to the traffic signal will be included, and the southbound Bush Road turn lanes will have increased capacity.

The goal of the project is to improve vehicular and pedestrian safety and reduce congestion during peak hour travelling.

Construction is tentatively scheduled to begin in April 2020. All existing travel lanes will be maintained during construction, but intermittent interruptions due to construction activity are possible but will be minimized to the greatest extent possible.

Mayor and City Council approved a construction agreement with Vertical Earth, Inc. for just over \$1.1 million. Funding for the project will come from the 2017 SPLOST through an intergovernmental agreement with Gwinnett County.
