Intuitive Surgical to demolish buildings in Tech Park

Constructed in 1986, this 1-story office building at 3790 Data Drive will soon be demolished to make room for a new Intuitive Surgical training facility. Another building at 3770 Data Drive is in the process of being demolished. The demolition is part of an expansion plan announced last August. Intuitive, a publicly traded company that makes robotic-assisted surgical systems, is expanding its presence in Peachtree Corners, investing over \$500 million into its current campus and creating over 1,200 high-paying jobs.

According to the Georgia Department of Economic Development, Intuitive's expansion is among the largest announced projects in the state this year in terms of jobs and investment and the largest in Gwinnett County's entire 200-year history.

Located at 5655 Spalding Drive, Intuitive will expand its current location to create a regional headquarters. The expansion will include a six-building campus totaling more than 750,000 square feet of manufacturing and engineering operations, state-of-the-art training facilities for surgeons and hospital care teams, and administrative offices. The new facilities will open in phases, as they are constructed, with the entire expansion project scheduled to be completed by 2024.
