

Veterans Monument Dedication Set for June 15

Progress continues on the Peachtree Corners Veterans Monument. All of the benches have been installed as well as most of the wall caps, and the granite facades for the sculptures. We are working on getting the interactive kiosk and app developed and in production.

The sculptures will be delivered in June.

Except for the installation of the sculptures, construction will be complete for the Town Green grand opening. There will be a soft opening on that occasion that will include raising the flags, turning on the interactive systems, and conducting tours.

Our formal unveiling and dedication will be on Saturday morning, June 15.

We are still accepting donations and engraved paver orders. Pavers that been ordered since January 3, 2019 will be installed before the June 15 dedication.
