

August 2020

Did You Know ...

Only 64.1% of PTC Residents Have Completed Census Survey

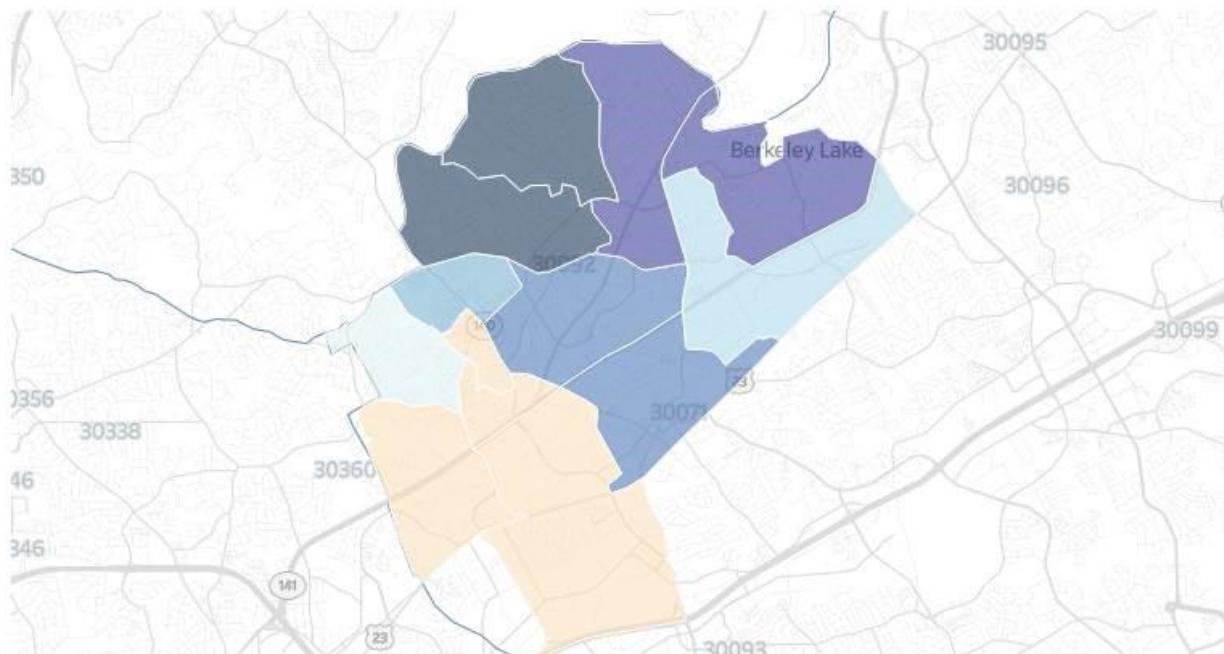

There's one thing everyone can do to help our community: complete your census form!

Time is running out – the opportunity to take the online survey ends Aug. 11. As of July 21, 2020, only 64.1% of Peachtree Corners residents had responded to the census.

Completing the census now means you won't have someone knocking on your door in the future for an in-person interview. Take 10 minutes and help your community and do your part in helping the city reach 100% participation.

The map indicates the response rate as of July 21, 2020. The area outlined in pale yellow has the lowest response rate (41-50%). The area outlined in black has the great number of responses 86-100%).

If you have not received anything from the Census Bureau, you can still respond online. Access the online form at <https://my2020census.gov/login> and select "Start Questionnaire." Below the ID field, click on the link that reads, "If you do not have a Census ID, click here" to complete your survey.
