COVID Guidance for Our Building

3.24.22

As we look to the UUA and the CDC, we see that both are encouraging flexibility in what we require of folks related to protection. **Now that we are no longer at a critical level in Glynn County, we feel that folks can make their own decisions about whether to wear a mask.** You need to do what is comfortable for you. We also encourage you to watch the community levels for COVID which can be found at this link.

<https://www.cdc.gov/coronavirus/2019-ncov/science/community-levels.html>

If we return to the High (red) level, then the guidance is to put them back on. But we are no longer going to try to monitor and share this as a board. We believe our folks can watch this and make this determination for themselves. We also believe that since all our folks are vaccinated, we can feel safer here than most places.

One advisor said to think of the mask as your rain poncho or umbrella. Have it handy. And if you are in an area where you feel uncomfortable because of the crowding or the increases in COVID numbers, etc., put your mask on – just as you put up your umbrella if it starts to rain.

We will also continue to provide Zoom services for those who may feel sick, or who are traveling, or for whatever reason. We do hope that many of you will join us in our wonderful sanctuary, though. Oh, how wonderful it is to be able to sing and make a joyful noise together again!
