Lafayette, LA 70506*

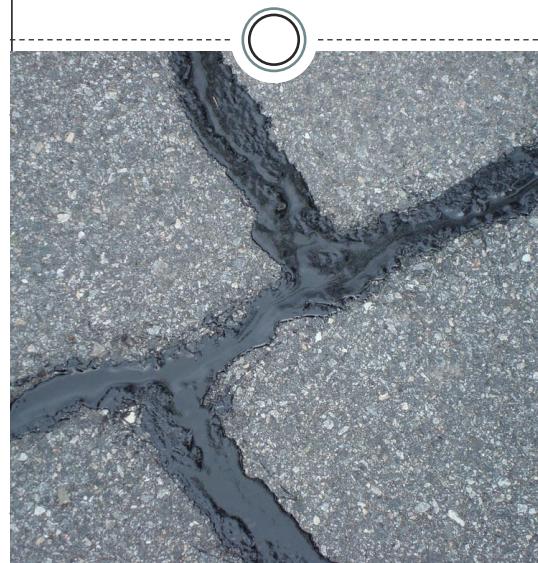

Local Technical Assistance Program (LTAP)  
Louisiana Transportation Center  
4099 Gourrier Avenue  
Baton Rouge, LA 70808-4443

## Roads Scholar #7:

### Pavement Preservation & Road Surface Management

(6 PDH's)

**The Louisiana Local Technical Assistance Program (LTAP)**  
is a cooperative effort between the Louisiana Department of Transportation and Development, the Federal Highway Administration, and Louisiana State University. LTAP serves the needs of local transportation agencies and is a part of the Louisiana Transportation Research Center.

## REGISTRATION

Registrations are now **only accepted online** at <https://registration.ltrc.lsu.edu/login>.

If you have not done so for a previous LTAP class, you must create a profile in the new system to register. Please keep a record of your username and password for future course registrations.

*Note: If you need to register multiple people on behalf of your agency, create yourself a profile and email your username to [courtney.dupre@la.gov](mailto:courtney.dupre@la.gov) for instructions.*

Once inside your profile, click on "**LTAP — Roads Scholar #7: Pavement Preservation & Road Surface Management.**" Elected officials register under the link designated (**ELECTED OFFICIALS—MORNING ONLY**)

## FEES & CANCELLATIONS

\$25 for Public Agencies • \$50 Private Agencies  
Credit card payments accepted through the online registration system. Now accepting Visa, MasterCard, Discover, or American Express.

Checks or money orders also accepted. Make payable to: LOUISIANA STATE UNIVERSITY. Mail checks to:

LTAP-Technology Transfer/LTRC  
4099 Gourrier Avenue  
Baton Rouge, LA 70808-4443  
ATTN: Courtney Dupre

Registration is required **one week in advance of class. Failure to cancel at least 72 hours prior will result in a forfeit of registration fee.** Participant substitution is available.

## ABOUT THE COURSE

If your local public agency is like most others, there are always more roads/streets that need repairing than available funding to do so. And with each year that passes, the gap widens between the limited dollars and the backlog of pavement repair needs, thus putting your agency further and further behind. Is there a way to stretch your agency's limited budget to make it go further, while at the same time improving the overall condition of your road or street system?

Come learn about the benefits of applying Pavement Preservation to your existing network of paved roads/streets, the basic philosophy behind Pavement Preservation, and the materials and processes for common Pavement Preservation treatments such as crack sealing, chip seal, microsurfacing, and slurry seal. You'll also learn how to assess pavement conditions so that the right treatment can be applied to the right road at the right time in order to maximize the benefits of Pavement Preservation.

**REGISTRATION: 7:00 a.m.**

**CLASS TIMES: 7:30 a.m.— 2:30 p.m.**

## WHO SHOULD ATTEND

This course is designed primarily for local public agency supervisors, managers, and engineers who are responsible for the maintenance of roads/streets in their agency's system. Local agency officials responsible for budgeting for road/street maintenance and elected officials, both of whom are often unaware of the cost effectiveness of implementing a Pavement Preservation program, will also benefit from attending this course.

## NOTE FOR ELECTED OFFICIALS

Don't have time to attend the full day course? Complementary attendance (breakfast included) will be provided for Elected Officials from 7:00am – 9:00am to attend introductory module with an overview of concepts and philosophy to pavement preservation. **Must register to attend.**

## INSTRUCTOR

### Nicholas "Nick" Verret, Jr. P.E.

Mr. Verret has been a registered professional engineer in Louisiana since 1984. Following a 31+ year career with the Louisiana Department of Transportation and Development (DOTD) in the areas of highway construction, design, and administration, he served

as the LTAP Program Manager from October 2011 until December 2012. He was later appointed as Director of Public Works for the Parish of Natchitoches until stepping down from that position in July 2017. Mr. Verret currently serves as Parish Engineer for the Parish of Natchitoches and City Engineer for the City of Natchitoches where he has developed pavement management programs for both entities. All told, Mr. Verret has over 39 years of experience in the highway industry, virtually all of which has been directly involved in the evaluation, design, construction, and maintenance of asphalt pavements.

## QUESTIONS?

Contact the LTAP Office:

Phone: (225) 767-9717

Fax: (225) 767-9156

E-mail: [courtney.dupre@la.gov](mailto:courtney.dupre@la.gov)

The Louisiana Transportation Research Center is a Louisiana State Board of Registration for Professional Engineers and Land Surveyors, approved Sponsor/Provider of Continuing Professional Development.

Professional Development Hour (PDH) credit will be awarded as follows: fifty (50) contact minutes of instruction or attendance = one (1) PDH.
