Lower Russian River Municipal Advisory Council (MAC)

Want to help shape the future of the Lower Russian River Area?

Consider applying to serve on the Lower Russian River Municipal Advisory Council (MAC)!

MACs are an important way for community members to have a direct voice in County government. Members engage with residents, learn about community priorities, and provide input and recommendations to County decision-makers.

Supervisor Lynda Hopkins is currently recruiting applicants from the following areas for two-year terms beginning January 2027:

- Forestville
- West Forestville (Hacienda on map)
- Rio Nido
- Guerneville
- Guerneville South / Pocket Canyon
- Monte Rio / Villa Grande
- Cazadero / Duncans Mills

You don't need to arrive knowing all the ins and outs of County government — members learn along the way, bringing their own experiences, perspectives, and knowledge of the community to the table.

Hybrid meetings take place monthly.

In addition to remote attendance by the public, current law also allows for Council members to attend remotely, making meetings more accessible for all.

Enter an address at this map to see if it is in a River MAC area:
