FOR IMMEDIATE RELEASE

CALTRANS BEGINS DELTA MENDOTA CANAL BRIDGE REHABILITATION PROJECT ON STATE ROUTE 152 NEAR LOS BANOS

MERCED COUNTY – Caltrans is preparing to begin a rehabilitation project that will install new deck surface and railings on the Delta Mendota Canal Bridge on State Route 152 near Los Banos in Merced County.

This project is scheduled to begin the week of July 4-10, 2021, with completion expected in Spring 2022.

Work is scheduled to occur during day and night-time hours, Sundays through Thursdays, and will require lane closures through the construction area. At least one traffic lane will be open at all times during construction.

Caltrans will have changeable message signs alerting motorists of the lane closures and potential delays, estimated at 10 minutes.

This estimated \$2.42 million project will be performed by Graniterock Construction, Inc. of Watsonville, CA.

Schedules are subject to change due to traffic incidents, weather, availability of equipment and/or materials and construction related issues.
